The Homicide Investigation course provides participants with advanced knowledge, skills and abilities required for the successful resolution of death investigations.

Carefully selected case studies are used to explore every aspect of death investigations. An expert in a specific field of specialization leads each course segment. These experts are court certified and provide participants with valuable exposure to years of field experience and a variety of investigative techniques.

This course is an intensive 80-hour course. Each participant is granted the opportunity to individually interact with the instructors. Reading material and small group problem solving supplement the classroom instruction. At the completion of the course, participants have the ability to differentiate between accidental, suicidal and homicidal death.

Course topics and areas of instruction include:

- ~ Overview of death investigations (resources required and the category of death)
- ~ Understanding behavior
- ~ The role of the crime laboratory
- ~ Medical/Legal causes of death
- ~ Evaluating blood stain and physical evidence
- ~ Evaluating physical force impact on bodies & objects
- ~ Criminal Profiling: small group criminal profiling exercise

Enrollment is limited to law enforcement officers, investigators, supervisors, and other authorized officers who are responsible for investigating homicides (crime scene technicians, medical examiner/coroner investigators, prosecutors).

NITAB member agencies - Please contact our office for registration and tuition assistance information. (Registration will be completed through Southern Police Institute).
