BASIC TACTICAL MEDICAL INSTRUCTOR TRAINING PROGRAM

Date: July 10-12, 2018

Times: 0800-1700 hours

Location: Rockford Police Department
557 South New Towne Drive
Rockford, IL

Instructor: FLETC staff

Member Fee: \$0

Non-Member & Civilian Fee: \$0

The Basic Tactical Medical Instructor Training Program is a highly intensive program requiring a physical demand on the student and consists of lecture, labs and skill practice. The law enforcement officer will gain knowledge and skills necessary to mitigate the loss of their life or the life of another while in an active threat environment. The skills will address treating life threatening injuries in an austere environment with limited equipment, lack of medically trained personnel and prolonged time to evacuation.

Tactical Medical is a systematic approach to dealing with casualties in a tactical environment. It is strongly influenced by the model used by the Department of Defense called Tactical Combat Casualty Care (TCCC). As the name implies, TCCC incorporates tactical problem solving into any situation in which casualties are incurred from an armed, hostile opponent. The TCCC system focuses on saving "preventable deaths" while achieving three primary goals: Treat the Casualty, Prevent Additional Casualties, and Continue the Mission.

Upon completion from this course, students will be able to deliver training in the basic civilianized tenants of TCCC life-saving skills.

Enrollment is limited.

This course has been certified by the ILETSB and approved to meet the following mandates:

- | | |
|---|--|
| <input type="checkbox"/> Civil Rights | <input type="checkbox"/> Constitutional & Proper Use of Law Enforcement Authority |
