TRAFFIC CRASH RECONSTRUCTION 1

Date: April 27- May 8, 2026 **Registration deadline: March 27, 2026**

Times: 0800-1600 hours

Location: NITAB
527 Colman Center Drive
Rockford, Illinois

Instructor: NUCPS staff

Member Fee: \$0 Non-Member Fee: \$0

This course has been approved by ILETSB for the following mandates:

Civil Rights – 1.0
Constitutional Use of LE Authority – 1.0
Legal Updates – 1.0
Procedural Justice – 1.0
Lead Homicide Investigator – 80.0

In Traffic Crash Reconstruction 1, students synthesize lessons from the previous the courses to learn to determine how a crash occurred.

Incorporating the latest edition of our seminal textbook *Traffic Crash Reconstruction*, curriculum focuses on analyzing and interpreting information collected during previous stages of an investigation in order to describe – in as much detail as possible - the crash and the events leading to actual impact. Students apply the lessons from daily lecture material to real world case study situations – an instruction format that provides students with the training necessary to reconstruct traffic collisions. After successfully completing this course, students will have the ability to reconstruct crash situations using momentum and mechanics.

Prerequisites: Crash Investigation 1 and 2; Math and Physics Review for Crash Reconstruction and Vehicle Dynamics
